Ejiekpe Dickson Chidubem

Full-Stack Software Engineer | AI-Native Product Developer

Lagos, Nigeria | +234 805 332 2926 | Chidubemdickson123@gmail.com | chidubemdixon@gmail.com | portfolio-dickson5.vercel.app | github.com/chidubemdixon-ship-it

---

EXECUTIVE PROFILE

High-velocity Full-Stack Software Engineer specializing in architecting scalable web applications, resilient RESTful APIs, and intuitive user interfaces. Leverages modern AI agent workflows and automated scaffolding to accelerate development lifecycles from initial concept to production deployment. Combines a strong foundation in the MERN stack (MongoDB, Express.js, React, Next.js, Node.js) with over two years of product design expertise to engineer seamless, user-centric digital solutions at startup speed.

TECHNICAL COMPETENCIES

- **Frontend Architecture:** React, Next.js, Vite, JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Engineering
- **Backend & Databases:** Node.js, Express.js, MongoDB, Mongoose, RESTful API Design, JWT Authentication, Role-Based Access Control (RBAC), CORS Configuration
- **AI & Workflow Acceleration:** AI Agent Orchestration, LLM API Integration, Prompt Engineering, AI-Assisted Code Generation & Automated Debugging
- **Product & UI/UX Engineering:** Figma (Wireframing & Interactive Prototyping), Design Systems, User Flow Optimization, Visual Hierarchy, Usability Engineering
- **DevOps & Version Control:** Git, GitHub (Branching Strategies, Merge Conflict Resolution), CI/CD Deployment (Vercel, Netlify), Environment Management

EXPERIENCE & ENGINEERING PROJECTS

Software Engineering Intern

Full-Stack Development | Present

BuildLab Africa

- Architect and deploy production-ready frontend interfaces and scalable backend services within a fast-paced, agile engineering environment.
- Accelerate feature delivery timelines by integrating AI-native development workflows, reducing boilerplate setup and debugging overhead.
- Collaborate across cross-functional teams to translate complex business logic into clean, maintainable, and responsive codebases.

PriorityPulse — Full-Stack Task Management Platform

Lead Full-Stack Engineer | React (Vite), Node.js, Express, MongoDB | September 2026

- Architected an end-to-end task management application featuring a high-performance React/Vite client paired with a Node.js and Express backend.
- Engineered secure user authentication and authorization pipelines utilizing JSON Web Tokens (JWT), protected routing, and granular Role-Based Access Control (Admin vs. Standard User).
- Designed and implemented normalized data schemas, user models, and modular RESTful API controllers backed by MongoDB Atlas.
- Orchestrated production deployments across Vercel and Netlify, resolving cross-origin resource sharing (CORS) policies and environment variable configurations.

Hiring Operations Dashboard — Elevare Human Solutions

Frontend & Product Engineer | Next.js, React, Figma | August 2026

- Spearheaded the end-to-end engineering of an enterprise onboarding dashboard, translating low- and mid-fidelity wireframes into a responsive, production-grade Next.js application.
- Optimized user onboarding workflows to minimize friction points, delivering an intuitive, mobile-first interface tailored for high-volume operational efficiency.
- Engineered modular, reusable React component libraries to ensure visual consistency and maintainability across core dashboard views.

Threadly — Fashion Resale Marketplace UI

Product Designer | Figma | September 2026

- Designed a comprehensive mobile e-commerce interface encompassing product discovery, dynamic category filtering, and streamlined checkout user flows.
- Constructed high-fidelity, interactive prototypes to validate navigation architecture and user journey intuitiveness prior to engineering handoff.
- Accounted for complex edge-case scenarios—including empty states and automated out-of-stock restock notification flows—to ensure a resilient user experience.

EDUCATION & CERTIFICATIONS

- **Software Development Certification** — GoMyCode (2026)
- **UX & UI Design Certification** — GoMyCode (March 2025)
- **West African Senior School Certificate Examination (WASSCE)** — Mountain Top Secondary School (2026)
